Education

University of Washington

Bachelor of Science in Computer Engineering

Sep. 2026 – Present

Seattle, WA

Liberty High School

High School Diploma (Summa Cum Laude)

Aug. 2022 – Jun. 2026

Renton, WA

Experience

FIRST Robotics Competition

Software Subteam, Treasurer

September 2023 – June 2026

Renton, WA

- Collaborated on an object-detection model in RoboFlow framework to detect game pieces: labeled training data, tested models, implemented on Limelight camera.
- Collaborated on a subsystem that fed game pieces through the robot using beam break sensors. Minimized jams and cycling errors in competition.
- As treasurer, raised \$36k for team across annual summer camp, corporate matches, and community sponsorships.

University of Washington

Accessibility Intern

June 2025 – October 2025

Seattle, WA

- Revised 1 UW ECE course to meet WCAG standards.
- Automated accessibility revisions with LLMs, creating alt text for images.

Projects

ESP32 Water Sensor | C++, ESP32, Arduino IDE

August 2026 - Present

- Developed a remote water sensor that detects and transmits the water level (with an HC-SR04 ultrasonic sensor) in a tank to a website.
- Programmed sender and receiver code in C++ (Arduino IDE) with the ESP-NOW protocol and WiFi library.
- ESP-NOW sends information between a sender and a receiver ESP32, while WiFi allows the receiver to upload data to a web server.

Personal Website | HTML, CSS

August 2026 - Present

- Built a personal website that showcases my projects and interests.

Technical Skills

Languages: Python, Java, HTML/CSS, C++

Developer Tools: VS Code, Arduino IDE

Technologies/Frameworks: Linux, GitHub, RoboFlow, ESP32, Arduino, Onshape CAD

Non-STEM: Canva, Editing

Leadership / Extracurricular

Math Club

President

September 2022 – June 2026

Liberty High School

- Developed fundamentals in competitive mathematics and the art of problem solving.
- Taught math competition skills and expanded member skillset to personal finance and AI.
- Increased membership by 250%, AIME qualification rate by 8%

FIRST Lego League (FLL)

Facilitator

September 2024 – January 2026

Briarwood Elementary School

- Directly mentored 1 and administratively managed 6 more FLL teams.
- Made presentations to guide teams in building robots and designing an innovation projects.
- 1 mentored and 1 administered team qualified to state semifinals.

Unified Robotics

Advocate

September 2024 – April 2026

Liberty High School

- Unified Robotics is a nonprofit that partners disabled and non-disabled individuals to build robots together.
- Spread Unified Robotics to 2 new countries and 3 new states.
- Presented about Unified Robotics on the regional and global scale.
- Invited state legislator to annual Unified Robotics state championship.
